

Decision Tree Models

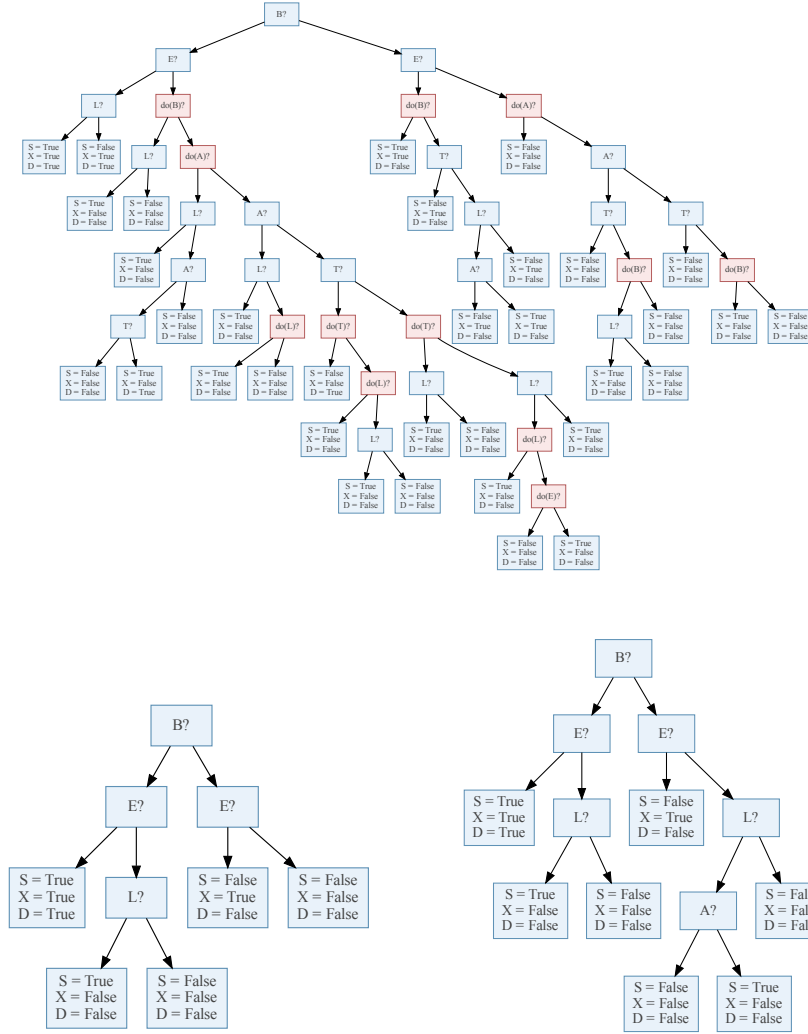

Figure 1: Decision trees constructed from ASIA using Causal Decision Score (Top), Gini Index *our* implementation (bottom left) and Gini Index *scikit* (bottom right). (Best viewed in color.)

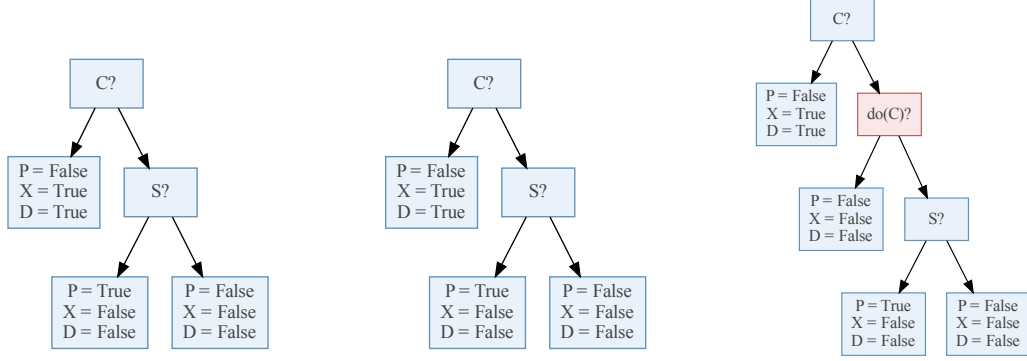

Figure 2: Decision trees constructed from CANCER using Gini Index *our implementation* (left), Gini Index *scikit* (middle) and Causal Decision Score (right). (Best viewed in color.)

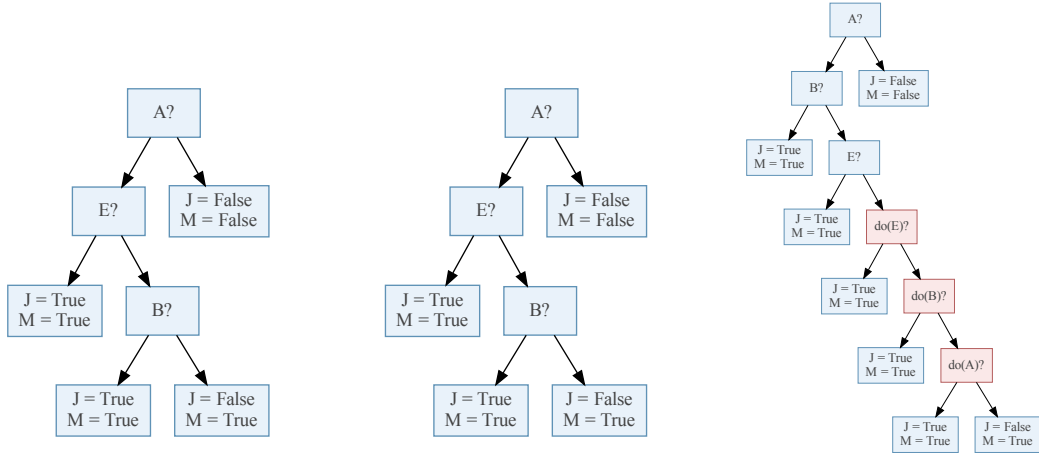

Figure 3: Decision trees constructed from EARTHQUAKE using Gini Index *our implementation* (left), Gini Index *scikit* (middle) and Causal Decision Score (right). (Best viewed in color.)

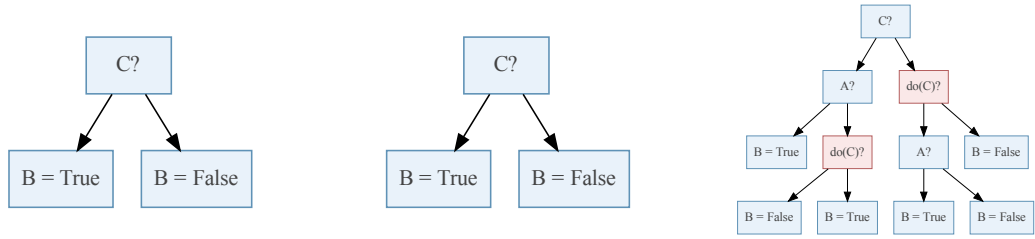

Figure 4: Decision trees constructed from CHAIN using Gini Index *our implementation* (left), Gini Index *scikit* (middle) and Causal Decision Score (right). (Best viewed in color.)
